SYSTEM

TIME FOR CHANGE

**Sound investment - Space savings - Environmentally friendly
A Crescendo System is the answer**

Smart, neat and simple. An sound investment that gives quick payback time. It is the flexible furniture system that can adapt to any available floor space very efficient. Various table size and table shapes can be picked to build according to your needs. Saving on building expansion investments perhaps...

With a Crescendo System you can make creative and fun lay-outs very easy without using any special furniture. Only use our standard assortment and that will be enough.

Crescendo System has a full product program of furniture modules to build restaurants, bars, conference rooms or any other locality that requires swift and flexible furniture set up.

Crescendo System contains an Event-series that offers insulated wood floor that is designed for ice hockey arenas and complimentary furniture for big events.

The table ends are all grooved and together with a plastic tongue it makes the mount of tables really simply. The metal bracket supports the table joint from underneath which gives extra rigidity. When tables are mounted together the joints can hardly be noticed.

KR3F

In the storing unit can tables and tops be conveniently stored. The unit takes small foot print and is easy to move. It can naturally be used as a table, buffet table or bar table. The table top is grooved which gives the flexibility to build larger units if needed.

KR3F

KR3F

Product data:
The store units are built with profiles and covered with stained birch plywood in the same colors as table tops.

Crescendo System Event is a series of furnitur to be used for bigger events. Tables have the same groove and tongue design as our standard tables and the benches can be mounted together and is stackable when stored.
